GEL008

GEO-TRACKING LINK

Automatic feedback on vehicle's counters

Operation

Upon recovering refuellings on the automatons, the software searches for all additional information on the GEO-TRACKING server (counter and possibly agent).
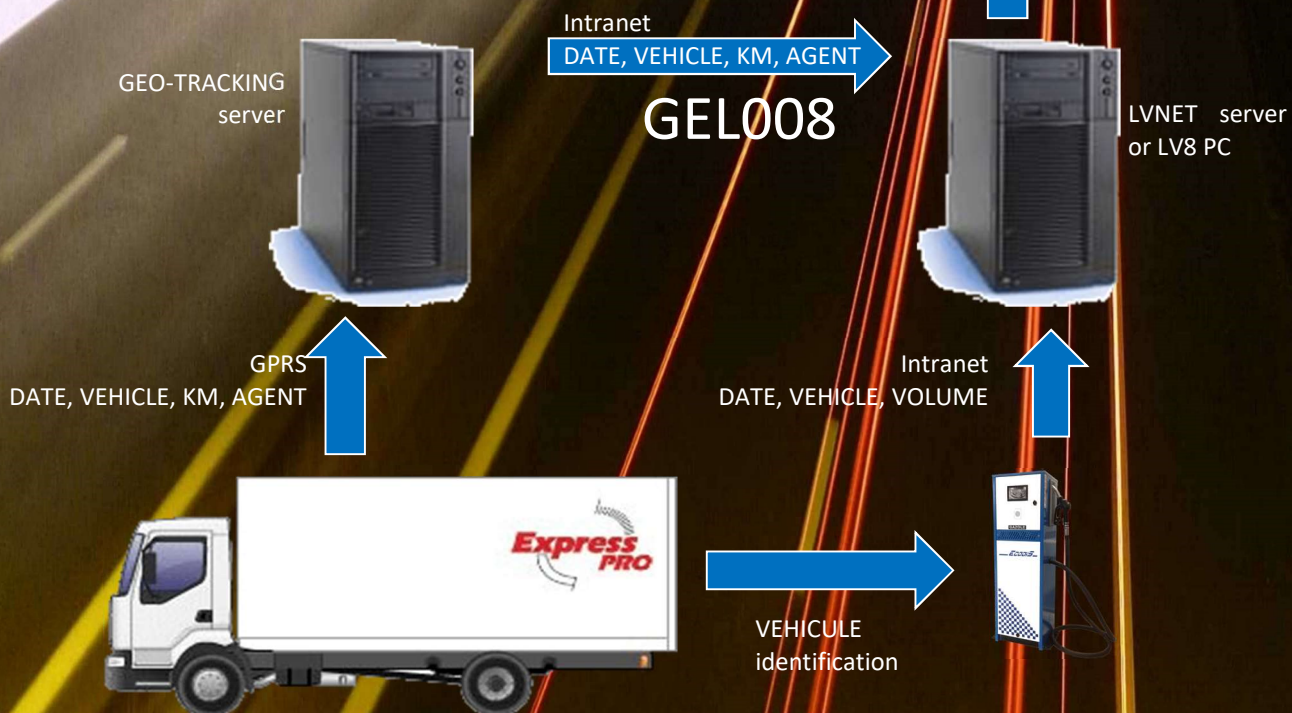

Interface performances

- LV8 and LVNET compliant
- Configurable automatic synchronisation
- Email alarms if counter unrecovered (LVNET only)
- Recovery of kilometers and/or hour counter.
- Recovery of driver on duty when refuelling (according to geo-tracking)

Compatible geo-tracking

- TOMTOM
- ELOCOM VEHCO
- TRANSICS
- QUALCOMM
- OMP
- …
- Others please contact us
